Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 January 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. The following correspondence is a non-final Office Action for application number 10/565,292 for a DEVICE FOR RELEASABLE MOUNTING OF A BUNDLE OF BAGS ON A WALL, filed on 1/20/2006. Claims 1-6 are pending.

Priority

2. Acknowledgment is made of applicant's claim for priority under 35 U.S.C. 119(a)-(d) based upon an application filed in Sweden on August 8, 2003 and International Patent Application No. PCT/SE2004/001168 on August 6, 2004. A claim for priority under 35 U.S.C. 119(a)-(d) cannot be based on said applications, since the United States application was filed more than twelve months thereafter.

Information Disclosure Statement

3. The listing of references in the Search Report is not considered to be an information disclosure statement (IDS) complying with 37 CFR 1.98. 37 CFR 1.98(a)(2) requires a legible copy of: (1) each foreign patent; (2) each publication or that portion which caused it to be listed; (3) for each cited pending U.S. application, the application specification including claims, and any drawing of the application, or that portion of the application which caused it to be listed including any claims directed to that portion, unless the cited pending U.S. application is stored in the Image File Wrapper (IFW) system; and (4) all other information, or that portion which caused it to be listed. In addition, each IDS must include a list of all patents, publications, applications, or other information submitted for consideration by the Office (see 37 CFR 1.98(a)(1) and (b)), and MPEP § 609.04(a), subsection I. states, "the list ... must be submitted on a

separate paper." Therefore, the references cited in the Search Report have not been considered. Applicant is advised that the date of submission of any item of information or any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the IDS, including all "statement" requirements of 37 CFR 1.97(e). See MPEP § 609.05(a).

Claim Objections

4. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1-6 appear to recite structural details of the bundle of bags and wall which are not parts of any claimed element. Note that claim 1 only recites positive limitations directed toward the structure of the wall-mounted suspension fitting device.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action: -

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-4 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Moreno (U.S. Pat. 4,300,692).

Regarding claim 1, Moreno teaches a device (1) comprising a wall-mounted suspension fitting (Fig. 2) in that the fitting has an upwardly directed clip finger (3) which

includes a projection having two vertically separated oblique surfaces which are mutually convergent in a direction towards the wall (see figure below as rotated).

Although claim 2 merely recites functional language, it is nonetheless rejected because Moreno teaches the device of claim 1 that is capable of being used with a sheet that includes midway of its width a slot which extends upwards from the lower edge of the sheet and which has a horizontal width that is at least equally as large as the horizontal width of the projection of the clip finger.

Regarding claim 3, Moreno teaches the device of claim 1 where the lower end of the clip finger merges, via a web, with an upwardly directed clip leg.

Regarding claim 4, Moreno teaches the device of claim 3 where the fitting is comprised of a springy, elastic strip-like element (col. 2, lines 67-68).

Regarding claim 6, Moreno teaches the device of claim 4 where the upper end portion of the clip finger is curved downwardly and inwardly the clip leg to form the projection (Figs. 1, 2).

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Moreno (U.S. Pat. 4,300,692).

Regarding claim 5, Moreno teaches the device of claim 3 where the clip leg carries on its outer surface an adhesive pad (8), but does not teach that the clip leg carries discrete adhesive pads. It would have been obvious to one of ordinary skill in the art, at the time the invention was made, to construct the device of Moreno with discrete adhesive pads, instead of one integral pad, to secure the device to a wall because making several pads from one pad is as an obvious matter of design choice and has no patentable significance because it does not produce a new and unexpected result.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nkeisha J. Dumas, Esq. whose telephone number is (571) 272-5781. The examiner can normally be reached on Monday - Friday, 8:30 a.m. - 5:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Friedman can be reached on (571) 272-6842. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
